Eastern Connecticut State University is again the highest ranked institution among Connecticut's four state universities in this year's U.S. News and World Report's edition of "Best Colleges." The 2020 rankings were released Monday.

This is Eastern's highest ranking as it was ranked 21st among public universities in the North Region. Eastern moved up five spots among public institutions over last year's rankings and moved up 13 spots to No. 80 when both public and private institutions were considered.

Other local and state colleges and universities fared well in the survey (see breakout information). The United States Coast Guard Academy was ranked second in regional colleges for the North Region, behind only Cooper Union. Mitchell College was tied for 36th in that category. Connecticut College was tied for 46th for national Liberal Arts Colleges.

The North Region includes colleges and universities from New England, New York, Pennsylvania, New Jersey, Delaware and Maryland, and is known as the most competitive among the four regions that make up the U.S. News and World Report ranking system.

Regional universities are ranked based on 15 criteria that include peer assessment, graduation and retention rates,
