

Eastern Connecticut State University:
Bachelor's Social Work Program Ongoing Assessment Results

Description of Assessment Procedure

The social work program selected two measures to assess the attainment of the nine identified competencies: 1) The Final Senior Field Evaluation, and 2) The Social Work Education Assessment Project (SWEAP) Foundation Curriculum, Post Exam. This measure assesses each of the nine competencies and associated practice behaviors. The program's assessment plan measures multiple dimensions of each competency involving both performance and the knowledge, values, skills, and cognitive and affective processes.

The data collection process for the assessment of competence occurs at **the end of the academic year**. The students' final senior field evaluation form, which is completed by the field instructor is collected by the field seminar instructors/field liaisons. At the end of the semester during exam week for what we refer to as "Assessment Day" all seniors come together and complete the SWEAP Foundation Curriculum, post exam. The students are instructed about the purpose of participating in the assessment process and that their individual scores on the exam will have no impact on their final grade or their status in the program. For the field evaluation data was collected on all 39 seniors. For this assessment period 38 students participate in assessment day. The program achieved 91% (n=39) compliance regarding completion of the foundation exam.

Identified Measures	Competencies Assessed	When Assessed	Where Assessed	How Assessed
Measure 1: Final Senior Field Evaluation (Demonstration of competency real practice situations)	Competencies 1 through 9 Dimension Performance, Skills, Knowledge, values, cognitive and affective processes	At the end of the final semester	Field internship Experience	The student's performance on each of the behavior is rated on 1 – 3 rating scale. 1=needs additional assistance/does not meet standard; 2 = meets standard; 3=performs above standards. Students are expected to achieve a 2 or better
Measure 2: Social Work Education Assessment Project (SWEAP) Foundation Curriculum. Post	Competencies 1 -9 Dimension: Knowledge	At the end of the Academic year. exam emailed to students two weeks prior to the end of the semester, reminder emails sent consistently until last day of exam week.	Online instrument	Student expected to answer 50% of the questions correctly for each of the competencies
