**For More Information contact:**  
Robert Wolf, Ph.D.  
(860) 465-4622 or at

#### **TRIP HIGHLIGHTS**

- Hanover Jamaica is in a major tourist area and the crime rate is low. Water is safe to drink and U.S. electrical devices will work.
- You will visit a family court, an orphanage, a pre-school, a high school sex education class and participate in planning for community change in rural Jamaica, perhaps helping to conduct a community survey.
- We'll stay in Montego Bay our first and last nights and at Global Villa in Lucea, a guest house for Jamaicans, the other nights.
- Sightsee at Rick's Café and Bloody Bay in Negril and the Hip Strip in MoBay. Options include a swim with the dolphins in Lucea and Bull's Beach near Global Villa (the bull is gone!).
- Why this trip? Learning about Jamaica is important and experiencing another country close-up is very valuable. Human needs may be the same everywhere, but organizing to meet those needs varies from country to country.
- Get to know your fellow social work students better.
