Create Lego Vehicles

Transcript of children’s conversation:

Boy 1
(long sleeve shirt): This is a car.
It’s a racecar.

Boy 2
(short sleeve shirt): It needs one more piece.

Boy 1: If it breaks down we can hook it to this tow truck.

Boy 2: It doesn’t need to break down.
Cause if a car tries to smash into me...

Boy 1: No it has a hook.

Boy 2: It’s not broken down, but if it tries to break down it won’t
because I put a button on it.
It’s a special button. You see that button right there that my finger’s close to?

Boy 1: No cause you… This is not a special car.
I didn’t made a special car for you.

Can I just have it?

Boy 2: Wait, watch.
The race track combines to it to make it go even high...faster!

Boy 1: Can I just have it?

Boy 2: Okay but tell me when it’s mine, okay?
Wait! Don’t make it...

Boy 1: No. Then I can make it super cooler.

Boy 2: Okay.
I need this. Cause it’s a racetrack.
A tall racetrack.
I know where this piece can go on it.
I know. I know.

Boy 1: Not under the car.
I was working so hard to make that car.
