Eastern Electronic Music Ensemble to Perform at Capitol Theatre

WILLIMANTIC, CT – The Eastern Connecticut State University Electronic Music Ensemble (EEE!) will perform on Monday, April 7, at the Arts at the Capitol Theatre (ACT) Magnet High School at 8 p.m. ACT is located at 896 Main Street in Willimantic.

The EEE! will present a live performance to accompany the 1927 science fiction silent film “Metropolis.” All of the sounds created by EEE! in concert are either electronically generated or manipulated real-world sounds. The student performers play a number of unconventional instruments, including computers, synthesizers, turntables, motion detectors and some homemade instruments. They also perform on traditional instruments such as keyboards, guitars and wind controllers. The music for EEE! is all improvised and each concert is a unique experience.

Anthony Cornicello, associate professor of electronic music at Eastern, says, “I perform with them, serving as a sort of conductor/performer. The pieces are improvised, although

the students are each responsible for ‘directing’ the improvisation for a given scene of the film. It’s sort of a hybrid between group improvisation and group composition.”

Admission is \$5 and the public is invited to attend.

###

Eastern Connecticut State University is part of the Connecticut State University (CSU) system and is the state’s public liberal arts university. Eastern serves more than 5,000 students each year on its Willimantic campus.
