3. HAZARDS IDENTIFICATION

Toxicity: Exposure to vapors or mist may result in irritation of the respiratory tract. If ingested, will irritate esophagus and stomach. Irritates mucous membranes. May cause eye and skin irritation. May cause central nervous system (CNS) depression. May cause skin sensitization. Repeated and prolonged inhalation of graphite dust may cause pulmonary fibrosis, emphysema and pneumoconiosis.

Primary Routes of Entry: Inhalation of dust at levels above recommended exposure limit may cause metallic or sweet taste, irritation of pharynx and possible ulceration with perforation of the nasal septum. Moderately toxic if swallowed. Irritating to mouth, throat and stomach with nausea. Overexposure may cause eye and skin redness. Excessive accidental exposure may cause headache, dizziness, nausea and mild respiratory irritation. Hemolysis, jaundice, anuria, hypotension and convulsions may indicate acute copper poisoning.

Signs and Symptoms of Exposure: Persons with respiratory problems such as emphysema and asthma should avoid inhalation. Aggravated by Exposure: Persons with respiratory problems such as emphysema and asthma should avoid inhalation.

Medical Conditions Recognized as Being Aggravated by Exposure: Persons with respiratory problems such as emphysema and asthma should avoid inhalation.

4. FIRST AID MEASURES

Ingestion: If swallowed, DO NOT induce vomiting. Keep individual calm. Obtain medical attention.

Inhalation: If inhaled, remove to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. If breathing is difficult give oxygen. Get medical attention.

Skin Contact: Remove contaminated clothing. Wash area with soap and water. If irritation persists, seek medical attention.

Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists.
5. FIRE FIGHTING MEASURES
Flash Point (°F/C): More than 200 degrees F. Method: Tag Closed Cup
Recommended Extinguishing Media: Carbon Dioxide, Dry Chemicals, Foam. DO NOT use water.
Special Fire-Fighting Procedures: Firefighters should wear self-contained breathing apparatus.
