2. COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous Ingredients | CAS Number | Weight | ACGIH | OSHA |
----------------------|------------|--------|-------|------|
Perchloroethylene      | 127-18-4   | < 80%  |       |      |
Heavy Naphthenic Petroleum Oil | 64742-52-5 | 10%    | 5 mg/m3 as mist | 5 mg/m3 as mist |
Mineral Oil            | 64741-88-4 | < 15%  | 5 mg/m3 as mist | 5 mg/m3 as mist |
Propylene Glycol T-Butyl Ether | 57018-52-7 | < 12%  | NE    | NE   |
Carbon Dioxide         | 124-38-9   | < 15%  | 5000 ppm | 5000 ppm |

3. HAZARDS IDENTIFICATION

***EMERGENCY OVERVIEW***

Contents under pressure. Do not puncture, incinerate or expose to temperature above 120ºF (49ºC). Eye, skin and respiratory irritant. Harmful if inhaled.

POTENTIAL HEALTH EFFECTS

Routes of Exposure: Exposure may be by inhalation and/or skin or eye contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation and personal protective equipment. Eye Contact: May cause eye irritation. Redness and itching or burning sensation may indicate excessive exposure. Skin Contact: May cause skin irritation. Redness and itching or burning sensation may indicate excessive exposure. Inhalation: May cause irritation of the respiratory system. May cause nervous system depression. Headache, nausea, dizziness and loss of coordination are indications of excessive exposure to vapors or spray mists. Extreme overexposure may result in unconsciousness and possibly death. General: Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage. Headache, dizziness, nausea and loss of coordination are indication of excessive exposure to vapors or spray mists.

4. FIRST AID MEASURES

Eye Contact: Promptly flush with a large amount of water for at least 15 minutes. If irritation persists, consult a physician. Skin Contact: Promptly wash with soap and water and rinse thoroughly. Remove contaminated clothing and launder before reuse. If irritation persists, consult a physician. Inhalation: Remove to fresh air. Restore breathing if necessary. If irritation persists, consult a physician. Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

5. FIRE FIGHTING MEASURES

Flashpoint (Method): No flame extension. Non-Flammable. Lower Explosive Limit (LEL): 1.8 Upper Explosive Limit (UEL): 6.8 Autoignition Temperature: NA Fire and Explosion Hazards: Closed containers may explode, due to the build-up of pressure, when exposed to extreme heat. Application to hot surfaces requires special precautions. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention. Extinguishing Media: Carbon dioxide, dry chemical, foam. Fire Fighting Instructions: Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

6. ACCIDENTAL RELEASE MEASURES

Remove all sources of ignition. Ventilate and remove with inert absorbent. Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Do not incinerate. Depressurize container. Dispose of in accordance with all Federal, State and Local Regulations regarding pollution and waste disposal.

7. HANDLING AND STORAGE

Keep away from heat, flames, sparks or other sources of ignition. Consult NFPA Code. Use approved bonding and grounding procedures. Contents under pressure. Do not puncture, incinerate or expose to temperature above 120ºF (49ºC). Heat from sunlight, radiators, stoves, hot water and other heat sources could cause container to burst. Do not take internally. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Keep out of reach of children. Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Local exhaust preferable. General exhaust acceptable if the exposure to materials is maintained below applicable exposure limits. Personal Protective Equipment: Respiratory: If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted NIOSH-approved organic vapor/particulate respirator. Eye: Wear approved safety glasses with unperforated sideshields. Skin: Wear chemically impervious gloves. Other: An emergency eyewash station or source of clean potable water should be available in case of accidental eye contact.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

11. TOXICOLOGICAL INFORMATION

Perchloroethylene is listed by NTP and IARC as an animal carcinogen and by OSHA as a potential human carcinogen.

12. ECOLOGICAL INFORMATION

Marine Pollutant.

13. DISPOSAL CONSIDERATIONS

Do not incinerate. Depressurize container. Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. RCRA Code for Perchloroethylene is U210. Dispose of in accordance with Federal, State and Local Regulations regarding pollution and waste disposal.

14. TRANSPORT INFORMATION

DOT Shipping Data: Consumer Commodity, ORM-D Canadian TDG: Shipped in accordance with 49 CFR as part of a transborder shipment authorized under Section 5.2 (1) of the Canadian Transportation of Dangerous Goods. For International and Air Shipments: Aerosols, Nonflammable, Containing Substances in Division 6.1, 2.2, UN1950, Marine Pollutant.

15. REGULATORY INFORMATION

TSCA: All ingredients in this product are listed or exempt from listing on the TSCA Chemical Inventory. CEPA: All ingredients in this product are listed or exempt from listing on the Canadian DSL/NDSL. Proposition 65: This product contains a chemical known to the state of California to cause cancer, birth defects or other reproductive harm. (Perchloroethylene). SARA 313: This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372.65C):

- Perchloroethylene: 127-18-4
- Heavy Naphthenic Petroleum Oil: 64742-52-5
- Mineral Oil: 64741-88-4
- Propylene Glycol T-Butyl Ether: 57018-52-7
- Carbon Dioxide: 124-38-9

16. OTHER INFORMATION

NA = Not Available or Not Applicable. NE = Not Established.

Read and follow all label directions and precautions before using the product. These products are intended for industrial and institutional use only.
