# Latex Interior Finishes - CLASSIC 99® & SUPER PAINT™

## Section II - Hazardous Ingredient (percent by weight)

| CAS No. | Ingredient | ACGIH TLV | OSHA PEL | Units | Vapor Pressure (mm Hg) | CLASSIC 99® | SEMI-GLOSS | CLASSIC 99® | SEMI-GLOSS | CLASSIC 99® | SEMI-GLOSS | CLASSIC 99® | SEMI-GLOSS | CLASSIC 99® | SEMI-GLOSS |
|---------|------------|-----------|----------|-------|------------------------|--------------|------------|--------------|------------|--------------|------------|--------------|------------|--------------|------------|--------------|------------|
| 112-34-5 | 2-(2-Butoxyethoxy)-ethanol | Not Established | 0.1 | | | | | | | | | | | | | | | |
| 107-21-1 | Ethylene Glycol. | C 50 | C 50 | PPM | 0.1 | | | | | | | | | | | | | |
| 14808-60-7 | Quartz | 0.1 | 0.1 | Mg/M³ | | | | | | | | | | | | | |
| 14464-46-1 | Crystallite | 0.05 | 0.05 | Mg/M³ | as Resp. Dst | 6-18 | 1-3 | 1-3 | | | | | | | | |
| 1332-58-7 | Kaolin | 2 | 5 | Mg/M³ | as Resp. Dst | 0-2 | 0-2 | 0-2 | | | | | | | | |
| 12001-29-2 | Mica | 3 | 3 | Mg/M³ | as Resp. Dst | 0-10 | 0-12 | 0-12 | | | | | | | | |
| 471-34-1 | Calcium Carbonate. | 10 | 15 | Mg/M³ | as Dst Fract | 2-19 | 2-19 | 2-19 | | | | | | | | |
| 13463-67-7 | Titanium Dioxide. | 10 | 10 | Mg/M³ | as Dst Fract | 9-19 | 7-20 | 7-20 | | | | | | | | |

**Calculation Notes:**
- Weight per Gallon (lbs.): 10.18-11.94
- Percent Water: 38.4-53.0
- Volatile Organic Compounds (VOC) - Total (lbs./gal.): 0.16-0.70
- Volatile Organic Compounds (VOC) - Less Water (lbs./gal.): 0.50-1.46
- HMIS (NFPA) Rating (health - flammability - reactivity): 2-0-0

### Section III - Additional Information

**Section IV — FIRE AND EXPLOSION HAZARD DATA**

**Flash Point** Not Applicable

**Explosion** Not Applicable

**Emergency Euipment**

AIR EXTINGUISHING MEDIA

Carbon Dioxide, Dry Chemical, Alcohol Foam

**UNIQUE FIRE AND EXPLOSION HAZARDS**

Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat.

**Special Fire Fighting Procedures**

Full protective equipment including self-contained breathing apparatus should be used.

Water sprays may be ineffective. If water is used, fog nozzles are preferable. Water must be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

**Section V — HEALTH HAZARD DATA**

**Routes of Exposure**

Exposure may be by INHALATION and/or SKIN or EYE contact, depending on conditions of use.

To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment.

**ACUTE Health Hazards**

**EFFECTS OF OVEREXPOSURE**

Irritation of eyes, skin and upper respiratory system. In a confined area vapors in high concentration may cause headache, nausea or dizziness.

**SIGNS AND SYMPTOMS OF OVEREXPOSURE**

Reddening of the eyes or burning sensation may indicate eye or excessive skin exposure.

**Medical Conditions Aggravated by Exposure**

None generally recognized.

**Emergency and First Aid Procedures**

If INHALED: If affected, remove from exposure. Restore breathing. Keep warm and quiet.

If IN SKIN: Wash affected area thoroughly with soap and water.

If IN EYES: Flush eyes with large amounts of water for 15 minutes. Get medical attention.

If INHALED: Get medical attention.

**CHRONIC Health Hazards**

Crystalline Silica (Quartz, Cristobalite) is listed by IARC. Long-term exposure to high levels of silica dust, which can occur only when sanding or abrading the dry film, may cause lung damage (silicosis) and possibly cancer.

Ethylene Glycol is considered an animal teratogen. It has been shown to cause birth defects in rats and mice at high doses when given in drinking water or by gavage. There is no evidence to indicate it causes birth defects in humans.

Prolonged overexposure to solvent ingredients in Section II may cause adverse effects to the liver and urinary systems.

Rats exposed to titanium dioxide dust at 350 mg/m3 developed lung cancer, however, such exposure levels are not attainable in the workplace.

**Section VI — REACTIVITY DATA**

**Stability** Stable

**Conditions to Avoid**

None known.

**Incompatibilities**

None known.

**Hazardous Decomposition Products**

By fire: Carbon Dioxide, Carbon Monoxide

**HAZARDOUS POLYMERIZATION — Will Not Occur**

**Section VII — SPILL OR LEAK PROCEDURES**

**Steps to Be Taken in Case Material Is Released or Spilled**

Remove all sources of ignition. Ventilate and remove with inert absorbent.

**WASTE DISPOSAL METHOD**

Made from these products is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Dispose of in approved facility. Do not incinerate closed containers. Dispose of in accordance with Federal, State, and Local regulations regarding pollution.

**Section VIII — PROTECTION INFORMATION**

**Precautions To Be Taken In Use**

Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using.

These coatings may contain materials classified as nuisance particulates (listed as Dust in Section II) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section II, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m3 (total dust), OSHA PEL 5 mg/m3 (total dust), 1 mg/m3 (respirable fraction).

**Ventilation**

Local exhaust acceptable if the exposure to materials in Section II is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

**Respiratory Protection**

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by MDOH/SHA for protection against materials in Section II.

When sanding or abrading the dried film, wear a dust/mist respirator approved by MDOH/SHA for dust which may be generated from this product, underlying paint, or the abrasive.

**Protective Gloves**

Wear gloves which are recommended by glove supplier for protection against materials in Section II.

**Safety Glasses**

Wear safety spectacles with unperforated side shields.

**Section IX — PRECAUTIONS**

**DOL Storage Category** — Not applicable

**Precautions To Be Taken in Handling and Storage**

Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

**Section X — OTHER REGULATORY INFORMATION**

**CALIFORNIA PROPOSITION 65**

HARMED: These products, except for A21M49, A21M89, A88M17, and A88G07, contain a chemical(s) known to the State of California to cause cancer.

This Material Safety Data Sheet conforms to the Hazard Communication standard.

The above information pertains to these products as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to these products may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.
