Section 1. Chemical Product and Company Identification

Product name: ZEP CERTÉZA
Product Use: Grout Cleaner
Product Code: 5048
Date of issue: 10/01/04
Supersedes

For MSDS Information:
Acuity Specialty Products Group, Inc.
Compliance Services 1-877-I-BUY-ZEP (428-9937)

For Medical Emergency
INFOTRAC: (877) 541-2016 Toll Free - All Calls Recorded

For a Transportation Emergency
CHEMTREC: (800) 424-9300 - All Calls Recorded
In the District of Columbia (202) 483-7616

Section 3. Hazards Identification

Acute Effects

Routes of Entry
Skin Contact. Eye contact. Inhalation. Ingestion.

Skin
Corrosive to skin on contact. Skin contact can produce inflammation and blistering. May be harmful if absorbed through skin.

Eyes
Corrosive to eyes. Direct contact with the eyes can cause irreversible damage including blindness.

Inhalation
Inhalation of the spray mist may produce severe irritation of respiratory tract, characterized by coughing, choking, or shortness of breath.

Ingestion
Harmful if swallowed. May cause burns to mouth, throat and stomach.

Carcinogenic Effects
Ingredients: Not listed as carcinogen by OSHA, NTP or IARC.

Chronic Effects
Repeated or prolonged exposure to spray mist may produce respiratory tract irritation leading to frequent attacks of bronchial infection. Repeated or prolonged exposure to the substance can produce damage to liver, kidneys, and red blood cells.

See Toxicological Information (section 11)

Section 4. First Aid Measures

Eye Contact
Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

Skin Contact
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately.

Inhalation
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Ingestion
Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately.
Section 5. Fire Fighting Measures

Flash Point: Not applicable.
Flammability: Not applicable.
Fire Hazard: May release dangerous gases (chlorine) when exposed to heat or flame.
Fire-Fighting Procedures: Use extinguishing media suitable for surrounding materials. Do not release runoff from fire to sewers or waterways. Wear special protective clothing and positive pressure, self-contained breathing apparatus.

Section 6. Accidental Release Measures

Spill Clean up: Put on appropriate personal protective equipment (see Section 8). Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal container.

Section 7. Handling and Storage

Handling: Avoid contact with eyes, skin and clothing. Avoid inhalation of vapors and spray mist. Use with adequate ventilation. Do not ingest. Do not reuse product container. Wash thoroughly after handling.
Storage: Keep container tightly closed. Keep container in a cool, well-ventilated area. This product should be stored away from oxidizing materials and strong bases. Store between 40°F - 120°F (4.4°C - 49°C). Keep out of the reach of children.

Section 8. Exposure Controls, Personal Protection

Eyes: Splash goggles.
Body: Wear appropriate protective clothing to prevent skin contact: Chemical resistant gloves. Water resistant footwear. Chemical resistant apron.
Respiratory: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value. If concentrations exceed recommended exposure levels, wear an approved/certified respirator until engineering controls are achieved.

Section 9. Physical and Chemical Properties

Physical State: Thin liquid
pH: < 1.0
Boiling Point: 100°C (212°F)
Specific Gravity: 1.06 (Water = 1)
Solubility: Easily soluble in cold water, hot water.
Color: Amber. (Light.)
Odor: Sweet.
Vapor Pressure: Not available.
Vapor Density: Not available.
Evaporation Rate: 1 compared to Water

Section 10. Stability and Reactivity

Stability and Reactivity: The product is stable.
Incompatibility: Reactive with oxidizing agents, alkalis.
Hazardous Polymerization: Will not occur.

Section 11. Toxicological Information

Toxicity to Animals: Hydrochloric Acid:
ORAL (LD50): Acute: 900 mg/kg [Rat.].
VAPOR (LC50): Acute: 4701 ppm 0.5 hour(s) [Rat.].

Section 12. Ecological Information

Ecotoxicity: Not available.
Biodegradable/OECD: Not available.

Section 13. Disposal Considerations

Waste: Waste must be disposed of in accordance with federal, state and local environmental control regulations.
Waste Stream: Code: D002 Classification: - (Hazardous waste.)

Consult your local or regional authorities.

Section 14. Transport Information

Proper shipping name: Corrosive liquid, acidic, inorganic, n.o.s. (Hydrochloric Acid)
DOT Classification: Class 8: Corrosive liquid.
UN number: 3264

Section 15. Regulatory Information

U.S. Federal Regulations: SARA 313 toxic chemical notification and release reporting:
- Hydrochloric Acid
- Ethylene Glycol Monobutyl Ether (Glycol Ethers)
- Clean Water Act (CWA) 311: Hydrochloric Acid
- Clean air act (CAA) 112 regulated toxic substances: Ethylene Glycol Monobutyl Ether (Glycol Ethers)

Section 16. Other Information

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
