Housing Room Selection

This semester we are preparing for the 2014-2015 housing selection process. There are several steps and deadlines students must meet in order to be eligible for the housing selection process. More information will be provided as the various steps in the process get closer, but here is a brief overview of the process.

**Housing Deposits:** The $250 non-refundable housing deposit is due Monday, March 24th. Students must have the deposit paid in order to participate in the roommate matching and selection process, which begins April 1st.

Students who do not pay the deposit are not eligible to participate and are automatically wait-listed. Paying a housing deposit does not guarantee housing (Eastern does not guarantee housing), it guarantees you will be permitted to participate in the process.

**Housing Application:** The housing application is due on Tuesday, April 1st. Students who do not complete the application (and pay the deposit on time) are not entered into the system to participate in roommate matching or the selection process.

**Housing Intent:** A housing intent survey is required for all students not planning to return to housing, as our office tracks the reasons students decide to leave housing. Students who do not pay the deposit by the March 24th deadline will be sent a link to complete the survey, by not paying the deposit, this is the first indication that you are planning to return to housing.

**Priority Points:** April 1st is the last day to earn priority points. On March 24th, students will receive their point totals (as of March 24th) and will have until March 28th to audit their points. Students will receive an email on Tuesday, April 2nd with directions on logging into the system to check the assigned housing pick time.

**Roommate Matching:** All students with a paid deposit and a housing application will participate in roommate matching from April 2nd – 3rd. Roommate matching does stay enabled throughout the housing selection process, some groups may have to break into smaller groups/singles if spaces are not available for the group.
