

Group 1: Where **exactly** will I find these?

Look at the Library of Congress Classification (LCC) sheet, identify the letters that correspond to Economics and Environmental Sciences, and write them below:

Reference Books

Reference books include handbooks, dictionaries, encyclopedias, directories, almanacs, data books, and yearbooks. Reference books are arranged alphabetically by LCC letters.

- Go to the Reference Collection area where your LCC letters are located.
- Browse these areas and find two reference books of interest (one for Economics and one for Environmental Science).
- Write down the titles of the reference books you find and their call numbers below.
- Briefly describe what kind of information they contain.
- **BRING THE BOOKS BACK TO THE USER ED ROOM!**
- Be prepared to briefly tell the rest of the class what you have learned as well as to show & describe the books you have found. *Distribute the LCC sheet to the class before you start your presentation.*

Current Periodicals (Newspapers, Magazines, and Journals)

- Go to Current Periodicals. The current issues of magazines and journals are arranged alphabetically by title.
- Find a current issue of an academic journal for Economics and one for Environmental Science. *Tip: you may want to use the online catalog, CONSULS – Advanced Search, limit to ECSU location and use Journal as Material type; consult the example below:*

The screenshot shows the CONSULS Advanced Keyword Search interface. At the top, there are tabs for 'Keyword', 'Title', 'Author', 'Advanced', and 'Call #'. Below these is the 'Advanced Keyword Search' section with instructions: 'Please fill in the form, select limits, and click Submit (or choose Keyword Search)'. There is a 'Clear Form' button. The search criteria are as follows: 'Any Field' dropdowns are set to 'Any Field', and the first text input contains 'economics'. The 'And' dropdowns are set to 'And'. Under 'Limited to:', there is a checkbox for 'Limit search to available items' which is unchecked. Under 'Sorted By:', there is a dropdown for 'Search and Sort:' set to 'sorted by n'. The 'Location:' dropdown is set to 'E > ECSU' and the 'Material Type:' dropdown is set to 'JOURNAL'. Red arrows point to the 'E > ECSU' and 'JOURNAL' selections.

- Examine the journals.
- Write down a topic from each journal that interests you.
- **BRING THE JOURNALS BACK TO THE USER ED ROOM!**
- Be prepared to briefly tell the rest of the class what you have learned as well as to show & describe the journals you have found.
