There was long discussion, reviewing the new housing policy that may be put into effect in the upcoming years. Instead of the current lottery, the university wishes to implement a system where students earn point based off of GPA, community service done through housing, credits earned, RA program attendance, and other factors to be added on over time. Through this system, students will earn points giving them placement numbers from the most points to the least points. Some concerns or questions asked by the senate were concern in the point gaps between the different factors, how to manage earning points with a loaded schedule, the concern for segregation among the dorms, and questioned based off of how the system will be set up to insure accurate data. The question of whether or not there should be squatters rights was asked as well as if the university should provide housing to those here

longer than a four year period. There were no motions made toward any of these topics but further discussions lead on after the meeting, to follow up on clarifying questions.
