

Cat-Traption—What Happened?

1. Watch the online Cat-Traption animation at <http://www.learner.org/channel/workshops/energy/cattraption/catrnthru.html>
You may have to watch the clip several times to see everything that happens.
2. Using the diagram on page 2, draw in the actions that you identify, labeling your steps.
3. Write a narrative of the action, identifying each energy form and describe the transition from one form to the next.
