Please format your abstract exactly as indicated below. Abstracts will not be edited before printing.

1. Arial 9-pt font.
2. 1-inch margin on right, 2.5 inch on left.
3. Only the presenting student(s) should be named. Students with graduate or professional coauthors on the presentation are not eligible for student awards. To be eligible for an award, students must be members of TriBeta. Mentors and collaborators should be acknowledged in the appropriate section of oral or poster presentation.
4. Include name of Tri Beta Chapter.
5. Include full name of college or university
6. A clear and concise title should be underlined.
7. Abstract should be limited to 200 words or less. Avoid use of unnecessary abbreviations and references.
8. Indicate in bold whether an oral presentation or a poster presentation is preferred.
9. Include the name and email of both the presenter and the mentor.
10. Submit a Word file named with the student presenter’s last name (DuBois_TriBeta_Abstract.docx) as an email attachment AND a completed author data sheet to: Patricia Szczys szczysp@easternct.edu no later than Friday, April 1, 2016.

DuBois, Dominique, Eta Omega, Eastern Connecticut State University. Genetic Mating System of the Marsh-Nesting Whiskered Tern

Natural selection favors strong pair bonds and strategies to avoid cuckoldry in species requiring high parental investment in rearing offspring. However, extra-pair paternity has been widely documented in avian species exhibiting social monogamy.....

Oral

student presenter: duboisdd@easternct.edu
