A Quick History
In 1889, the Connecticut General Assembly established the Willimantic State Normal School; 13 students came the first year. In June 1891 the first graduation ceremony sent 22 young women out into the world to become teachers. In 1937, the Willimantic State Normal School formally became Willimantic State Teachers College, as the college began offering a four-year curricular program and授予ing B.S. degrees. In 1958, the college was reorganized and renamed Eastern Connecticut State University. Over the course of its history, Dr. Núñez has firmly established Eastern's role as a public liberal arts university.

Within the Connecticut State University System, Eastern, a predominately residential campus, is recognized as an example of the state's mission to ensure access and affordability, as well as excellence and equity. The University has more than 2.4 million gross square feet of facility space. More than 30,000 students attend the Mansfield campus that provides showers and restrooms; and a 118,000-square foot Academic and Administrative Building. In its role as a public university, Eastern develops students who combine critical thinking, curiosity, integrity, and social responsibility.

In 1958, the college was reorganized and renamed Eastern Connecticut State University. Over the course of its history, Dr. Núñez has firmly established Eastern's role as a public liberal arts university.

A Liberal Education. Practically Applied.

In the past year, Eastern Connecticut State University has continued to receive national recognition, including moving up seven places in the annual U.S. News and World Report rankings to be named the 20th top regional public university in the North and being recognized for the seventh year in a row as one of the student Green Colleges by the U.S. Green Building Council.

Mission Statement
Eastern Connecticut State University is the state’s designated public liberal arts college. Within the Connecticut State University System, Eastern, a predominantly undergraduate institution, attracts and welcomes a diverse community of students, supported by a teaching faculty, staff, administrators, and a residential campus, all of which promotes intellectual curiosity, integrity, and social responsibility.

Eastern commitment to a liberal arts education is exemplified in its Liberal Arts Core Curriculum, a sequenced, interdisciplinary program that all students share, independent of their major. It focuses on understanding the human condition, including moving up seven places in the annual U.S. News and World Report rankings to be named the 20th top regional public university in the North and being recognized for the seventh year in a row as one of the student Green Colleges by the U.S. Green Building Council.

Mission Statement
Eastern Connecticut State University is the state’s designated public liberal arts college. Within the Connecticut State University System, Eastern, a predominantly undergraduate institution, attracts and welcomes a diverse community of students, supported by a teaching faculty, staff, administrators, and a residential campus, all of which promotes intellectual curiosity, integrity, and social responsibility.

Eastern commitment to a liberal arts education is exemplified in its Liberal Arts Core Curriculum, a sequenced, interdisciplinary program that all students share, independent of their major. It focuses on understanding the human condition, including moving up seven places in the annual U.S. News and World Report rankings to be named the 20th top regional public university in the North and being recognized for the seventh year in a row as one of the student Green Colleges by the U.S. Green Building Council.

A Liberal Education. Practically Applied.
In August 2016, Dr. Elsa M. Núñez started her 11th year as president of Eastern Connecticut State University in 1983. In 1998 the state designated Eastern as Connecticut’s public liberal arts university. Academic enhancements have ranged from increasing the number of full-time faculty to the development of new majors (e.g. Health Sciences, Criminology and New Media Studies). As a result, Eastern has achieved a number of noteworthy benchmarks, including the recent recording of the highest four-year graduation rate among Connecticut’s four state universities. Dr. Núñez’s commitment to access is evidenced by data that show Eastern has the highest percentage of minority faculty among all colleges and universities in Connecticut. As Connecticut’s public liberal arts university, Eastern prepares its students for careers or advanced study while providing them with the lifelong skills and perspectives necessary to prepare them for their personal, professional and public roles.

In its role as a public university, Eastern develops students who can become producers, engaged community leaders. Eastern also serves as a social, cultural and economic catalyst for the state and the region of Connecticut. Eastern’s programs and research, teacher education and professional studies prepare students for careers in advanced study while providing them with the lifelong skills and confidence needed to succeed in a world of constant economic, social and technological change. In the past year, Eastern Connecticut State University has continued to receive national recognition, including moving up seven places in the annual U.S. News and World Report rankings to be named the 26th top regional public university in the North and being recognized for the seventh year in a row as one of the most “miscellaneous public” colleges by the U.S. News and World Report.

In the Old Main, students may盛宴 join one of the numerous clubs and organizations, participate in various activates on campus, or simply enjoy the variety of dining choices that are available. The Old Main also houses the Library, which is open 24 hours a day, and provides access to computers, printers, and copiers. The Library is a valuable resource for students, faculty, and staff, offering a wide range of services, including interlibrary loans, electronic resources, and on-site research assistance.

The Office of Student Affairs is located in Old Main. This office is responsible for providing services to students, such as registration, academic advising, and student conduct. The Office of Academic Affairs is also located in Old Main and is responsible for overseeing the academic programs on campus. The Office of Institutional Research is located in Old Main and is responsible for collecting and analyzing data about the university.

The Office of Communications and Marketing is located in Old Main and is responsible for promoting the university and its programs to the public. The Office of University Relations is also located in Old Main and is responsible for handling media inquiries and managing the university’s website.

The Office of Athletics is located in Old Main and is responsible for overseeing the athletics programs on campus. The Office of Finance and Administration is also located in Old Main and is responsible for managing the university’s financial resources.

The Office of the President is located in Old Main and is responsible for overseeing the entire university. The President is assisted by the Office of the Provost, which is also located in Old Main and is responsible for overseeing the academic programs on campus.
