The minutes from our last meeting, March 12, 2014, were approved.

Proposals considered:

HEALTH SCIENCES MAJOR

We reviewed the Health Sciences proposal and found that many of the previous inconsistencies had been addressed. Still remaining: We are awaiting a new course proposal for SWK 3XX, *Health Promotion & Disease Prevention* (SWK 365 needs to be removed as it is a different, extant, course); the UConn nursing reference has been removed but Psych 247 is still in program description and the credits for the pre-nursing concentration need to be corrected from 20 to 23.

LIBERAL STUDIES MAJOR

Please more clearly define the “core” group of courses that is required of all students, otherwise this proposal appears to consist of four separate majors with only modest overlap. Restructuring the document could help with this; as it is it will be confusing for both students and advisors. Question: Should there be a GPA requirement for the major? Note: Someone will have to check that students who declare as pre-elementary education and pre-ECE but who never apply for CARE are dismissed from the LSM major (and so notified) when they complete 60 credits. There is no mechanism to make that happen automatically. Note 2: There is concern among the committee that the “Social Sciences” concentration is so heavily weighted towards History that it resembles a "History" concentration.
