University Senate Curriculum Committee  
April 9, 2014  
Minutes

Present: Barbara Liu, Zoran Pazameta, Leslie Ricklin, Anita Lee, Carolyn Coates, Catherine Tannahill, Jennifer Leszcynski, Jennifer Huoppi

The meeting was called to order at 12:00 pm.

Minutes from the previous meeting were approved.

Other reports: Barbara had a productive meeting with Prof. Chan from WLC about committee recommendations for the new GEC major. New proposals are still coming in.

Proposals considered:

A – O Health and Physical Education Packet

A. Health and Physical Education Department  
Health and Physical Education Program (Williams)  
Program modification not requiring BOR Approval (Senate Bill) for F2014  
Tabled: please note that EDU 405 has important co-requisites (but not the 30 credit minimum prerequisite mentioned in the documentation) and requires approval of Education Department for the proposed use. In order to be used for EDU 405 to be used in this major, either the prerequisite courses will also need to be added to the program description or the course will need modification (by the Education Department) removing those prerequisites. Also note that EDU 200 and 210 are still required for state certification (new state regulations haven’t yet been approved). Therefore, we believe that they should still be included in the major program.

B. Health and Physical Education Department  
Physical Education Teacher Certification Program (Williams)  
Program modification not requiring BOR Approval (Senate Bill) for F2014  
Tabled: please note that EDU 405 has important co-requisites (but not the 30 credit minimum prerequisite mentioned in the documentation) and requires approval of Education Department for the proposed use.
