**Calculator:** You will need a calculator for some topics. A simple one will do.

**Office hours:** MTWTh 5:00-5:45 pm.

**Prerequisites:** MAT 101 or placement at this level.

**Course topics:** Most of chapters 1, 2, 12, 13, 21, and 22.

**Class format:** Each class meeting will consist of a lecture and include related problem solving.

**Attendance:** It is expected that you be there on time for each and every class. If for some reason you should miss a class, then it is your responsibility to find out from a friend what has been covered and assigned and make it up.

**Homework:** After each class you will get a homework assignment. It will not be collected and graded, but must be completed and should prepare you for the exams. I cannot stress enough the importance of doing the homework. It is a critical factor in building and reinforcing your knowledge, as well as helping you identify your weak points.

**Exams:** There will be one "midsession" exam at the end of the second week and a final exam on the last day of the Intersession, Friday, January 23, 2004.

**Evaluation:** The "midsession" exam will account for 40% of your grade and the final exam will account for the remaining 60%.

**Grades:** The ranges for the grades are the following:

A-, A	90% and above
B-, B, B+	80% - 89%
C-, C, C+	70% - 79%
D, D+	60% - 69%

**How to get help:** You are encouraged to come see me during office hours, if you have difficulties with the subject matter. Do not wait until the final exam to get help, if you need it.
