Instructor: Christian Yankov  
Office and Phone: Science Building, Room 162, (860) 465-0171, from campus phones 5-0171  
E-mail: yankovc@easternct.edu  
Web Page: www.easternct.edu/personal/faculty/yankovc  
Time and Place:  
MWF 8:00-8:50 pm, Webb Hall 214  
W 9:00-9:50 pm, Webb Hall 214  
Calculator: An advanced graphics calculator TI-89 is required for this course.  
Office hours: in my office MW 12:00-1:00 pm, F 12:00-2:00 pm  
in Library 107-108 M 1:00-2:00 pm  
Prerequisites: MAT 243.  
Course topics: Antidifferentiation, integration and applications, integration techniques, infinite series.  
Class format: Each class meeting will consist of a lecture and include related problem solving. We will explore the kind of help that an advanced calculators (TI-89) can offer in solving calculus problems.  
Attendance: It is expected that you be there on time for each and every class. If for some reason you should miss a class, then it is your responsibility to find out from a friend what has been covered and assigned and make it up.  
Homework: After each class you will get a homework assignment. It will not be collected and graded, but must be completed and should prepare you for the quizzes. I cannot stress enough the importance of doing the homework. It is a critical factor in building and reinforcing your knowledge, as well as helping you identify your week points.  
Entry Exam: You have to take a computer based entry exam for assessment purposes, details about which will be discussed within the first 2 weeks of classes. It is intended to check your readiness for this class and to let me know what adjustments I have to make. It is not going to be counted toward your grade, except if you do not take it at all. Then your final grade for the class will go automatically down by one letter grade.  
Quizzes: Quite often at the beginning of class time there will be a short quiz. This should keep you alert and following the material carefully, closely and timely.  
Exams: There will be two longer exams throughout the semester. Their dates will be announced at least a week in advance.  
Final Exam: A cumulative final exam will take place on Mon., Dec. 15, 2008, 9:00-11:00 am.  
Evaluation: The quizzes will account for 15% of your grade, the two longer exams will account for 25% each and the final exam will account for the remaining 35%.  
Grades: The ranges for the grades are the following:  
   A-, A    90% and above  
   B-, B, B+ 80% - 89%  
   C-, C, C+ 70% - 79%  
   D, D+ 60% - 69%  
How to get help: You are encouraged to come see me during office hours, if you have difficulties with the subject matter.  
Make-ups: There will be no make-ups for quizzes, since I will drop the lowest one (or, two). Make-ups for exams are strongly discouraged and might be allowed for truly exceptional reasons only, and with my prior permission. 

(please, turn over)
Inclement weather: For cancellation of classes due to bad weather follow the messages on the university weather hot line at (860) 465-4444, or 1-800-578-1449.

Students with disabilities: If you are a student with a disability and believe you will need accommodations for this class, it is your responsibility to contact the Office of AccessAbility Services at (860) 465-0189. To avoid any delay in the receipt of accommodations, you should contact the Office of AccessAbility Services as soon as possible. Please note that I cannot provide accommodations based upon disability until I have received an accommodation letter from the Office of AccessAbility Services. Your cooperation is appreciated.
