Instructor: Christian Yankov
Office and Phone: Science Building, Room 162, (860) 465-0171, from campus phones 5-0171
E-mail: yankovc@easternct.edu Web Page: www.easternct.edu/personal/faculty/yankovc
Time and Place: MWF 10:00-10:50 am, Science 231
Office hours: in my office MWF 9:00-10:00 am, W 12:00-1:00 pm
in Library 107-108 M 12:00-1:00 pm
Prerequisites: MAT 420.
Course topics: Limits, continuity and uniform continuity of functions; differentiation and integration of functions; infinite number series; sequences and series of functions.
Class format: Each class meeting will consist of a lecture and include related problem solving.
Attendance: It is expected that you be there on time for each and every class. If for some reason you should miss a class, then it is your responsibility to find out from a friend what has been covered and assigned and make it up.
Homework: Homework should be written neatly on standard letter format paper on one side of the sheet only. By now I believe you understand the importance of doing the homework as a critical factor in building and reinforcing your knowledge, as well as helping you identify your week points and also as a valuable source of in-class discussion.
Binder: As in the fall semester, you must collect all your homework assignments in a binder. Put a separator to mark the end of the fall assignments and start adding the spring ones. At the end of the semester you should have a complete set of these for both semesters. This is a requirement to pass.
Quizzes: Quite often at the beginning of class time there will be a short quiz. This should keep you alert and following the material regularly, carefully, and closely.
Exams: There will be a midterm exam the date of which will be announced at least a week in advance.
Make-ups: There will be no make-ups for quizzes, since I will drop the lowest one. Make-ups for the midterm exam are strongly discouraged and might be allowed for truly exceptional reasons only, and with my prior permission.
Final Exam: A cumulative final exam will take place on Monday, May 18, 2009, 9:00-11:00 am. It may be replaced by a take-home final.
Evaluation: Your work in this course will be weighted roughly as follows. The quizzes will account for 20% of your grade, the homework will account for 25%, the midterm exam will account for 25% and the final exam will account for the remaining 30%.
Grades: The ranges for the grades are the following:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A-, A</td>
<td>90% and above</td>
<td></td>
</tr>
<tr>
<td>B-, B</td>
<td>80% - 89%</td>
<td></td>
</tr>
<tr>
<td>C-, C</td>
<td>70% - 79%</td>
<td></td>
</tr>
<tr>
<td>D, D+</td>
<td>60% - 69%</td>
<td></td>
</tr>
</tbody>
</table>

How to get help: You are encouraged to come see me during office hours, if you have difficulties with the subject matter.
Inclement weather: For cancellation of classes due to bad weather follow the messages on the university weather hot line at (860) 465-4444, or 1-800-578-1449.
Students with disabilities: If you are a student with a disability and believe you will need accommodations for this class, it is your responsibility to contact the Office of AccessAbility Services at (860) 465-5573. To avoid any delay in the receipt of accommodations, you should contact the Office of AccessAbility Services as soon as possible. Please note that I cannot provide accommodations based upon disability until I have received an accommodation letter from the Office of AccessAbility Services. Your cooperation is appreciated.
