ONUR BURAK CELIK

WORK EXPERIENCE

Summer 2005 - Center for Survey Research and Analysis (CSRA), University of Connecticut, Storrs, CT / Interviewer

Conducted interviews nationwide on the phone to produce the highest quality data for the projects range from national and international studies of public opinion and public policy to local community-based surveys.

Participated in an extensive and on-going training program.

Used Computer Assisted Telephone Interviewing (CATI) system to enter data directly into a computer file, which reduces the amount of human error in the survey process.
