It should take you to the followin	g webpage screen:			- • ×
Eastern Connecticut State Un REMOTE COMPUTER ACCESS	tats.com/eastern-connecticut-state-university.htr	ml	U A	
Computer Labs	L ibrary First Floor 3 computers available			
Library Second Floor Webb 410	ELABLIB1-6	ELABLIB1-6	Connect	
	ELABLIB1-10	ELABLIB1-10	Connect	
	ELABLIB1-18	ELABLIB1-18	Connect	
l	Library Second Floor			
	ELABLIB2-40	ELABLIB2-40	Connect	
	ELABLIB2-41	ELABLIB2-41	Connect	
	ELABLIB2-16	ELABLIB2-16	Connect	

Scroll down the webpage until you get to the list of open computers in Webb 410. Left click on the "Connect" button of the computer that you want to remote into.

From the "Connect to computer XXXX" popup window, write down or save the name of the computer that you want to VPN into that is located in the Webb 410 Lab. (i.e. ELABWEBB410-17B)

From the Eastern website home page, on the top right "3 Line" menu icon, left click the "Faculty & Staff" page link.

On the Faculty and Staff page, left click the "VPN" button.

How do I sign in to another domain?	

Your remote session logging in session processing screen should then appear as below:

You then should be able to start applications located on the Webb 410 computer as well as access your Eastern One drive just like you do directly using a Webb 410 computer.

TO END YOUR REMOTE SESSION – DO THE FOLLOWING STEPS:

Left click on the "Windows" icon bottom right of screen. The following Left-side Popup Menu should appear.

Left click "Shut down or Sign out" popup menu time. Then, on Sidebar menu that appears, click "Sign Out" The Right Sidebar Menu will then display two options "Disconnect" or "Sign Out". Left Click on "Sign Out"

This will return you to the Pulse Secure webpage, shown below.

On this page left click the "Sign Out" icon on the top right corner of the screen.

Left Click on "Sign Out"
