

BIS-AITP New Student Meet and Greet

On the first Wednesday of Fall 2018 Semester, August 29th from 6pm to 8pm, the BIS Club-AITP Student Chapter held a “Meet and Greet” to welcome new students into the BIS Program and invite them to the AITP student club. This session introduces new students to current AITP members, business information systems faculty and recent alumni of the BIS program who are now working at a variety of area companies such as Travelers, Cigna and General Dynamics. During this social event, new students learned about BIS-AITP club activities and the career options that the BIS related career field offers, while enjoying pizza, soda, and fruit in the Dean’s Conference Room. Most importantly, new students gained insight from alumni working in the BIS field and current upper-level AITP members and BIS students who have completed BIS internships at area companies including Cigna, Travelers, Yale Medical Center, End Game Strategy, RCN Capital Financial Group, the Mohegan Sun Casino and more in this come and go event.
