

Dear CFDRRC Families,

In preparation for inclement weather, we are updating our Eastern Emergency Alert System. Through Eastern Alert, you will receive a call, text, and/or email notification of weather-related delays, early dismissals, and closings set forth by the University.

Please complete the information required below in order to be placed on the Eastern Emergency Alert System. Indicate whether you would like a text as well.

As a reminder, please use the Eastern Weather Hotline to obtain delay, early dismissal, and closing information **especially when there is a pending storm**: 860-465-4444, 1-800-578-1449. In addition, local radio stations and televisions news stations will have this information.

Our goal is to ensure that children, families, students, and staff travel safely during winter weather. Thank you for your cooperation.

Sincerely,

CFDRRC Administration
