24 Hour Emergency Assistance

Section 1 Identification						Section 6 Accidental Release Measures				
Product Number:	C1990					Collect on absorbent and add water				
Product Name:	Linseed Oil, Raw	Health:	1				Section 7 Handling and Storage			
Trade/Chemical Synonyms		Flammability:	1				To be performed in compliance with all local, state, and federal regulations			
Formula:	N/A	Reactivity:	0				Section 8 Exposure Controls & Personal Protection			
RTECS:	OI9690000	Hazard Rating:				Respiratory Protection: I5125				
C.A.S	CAS# 8001-26-1	Least Slight Moderate High Extreme				Mechanical: <input type="checkbox"/>				
		0 1 2 3 4				Hand Protection: Wear appropriate gloves to prevent skin exposure				
		NA = Not Applicable NE = Not Established				Ventilation: Local <input type="checkbox"/>				
						Exhaust: <input checked="" type="checkbox"/>				
						Eye Goggles and Face Protection: Shield				
Section 2 Component Mixture						Other Protective Equipment: Wear appropriate clothing to prevent skin exposure				
Sara 313	Component	CAS Number	%	Dim	Exposure Limits:	Section 9 Physical and Chemical Properties				
<input type="checkbox"/>	Linseed Oil, Raw	CAS# 8001-26-1	100%	W/W	TLV 10 mg/mf (oilmist)	Melting Point: -19 Deg C				
						Specific Gravity 0.93				
						Boiling Point: >340 Deg C				
						Percent Volatile by Volume: 0				
						Vapor Pressure: Information not available				
						Evaporation Rate: 0				
						Vapor Density: Information not available				
						Evaporation Standard:				
						Solubility in Water: Not soluble				
						Auto ignition Temperature: Not applicable				
						Appearance and Odor: Yellow to amber oil, characteristic odor				
						Lower Flamm. Limit in Air: Not applicable				
						Flash Point: 432 Deg F				
						Upper Flamm. Limit in Air: Not applicable				
Section 3 Hazard Identification (Also see section 11)						Section 10 Stability and Reactivity Information				
Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.						Conditions to Avoid: Auto oxidation can lead to spontaneous combustion. Do not allow to be absorbed and stored on rags, towels, etc.				
Section 4 First Aid Measures						Materials to Avoid: Chlorine				
Generally not hazardous in normal handling, however good laboratory practices should always be used. Avoid long term exposure to skin or by inhalation.						Hazardous Decomposition Products: CO, Acrolein				
FIRST AID: SKIN: Wash exposed area with soap and water. If irritation persists, seek medical attention.						Hazardous Polymerization: Will Not Occur				
EYES: Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek Medical Aid. INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen						Condition to Avoid: None known				
INGESTION: Give several glasses of milk or water. Vomiting may occur spontaneously, but it is not necessary to induce. Never give anything by mouth to an unconscious person.						Section 11 Additional Information				
Section 5 Fire Fighting Measures						Can cause irritation to skin and eyes. If comes in contact with skin wash with soap and water. If comes in contact with eyes flush with water. If inhaled move to fresh air. If ingested get medical assistance as with all these occurrences should be done. Target organs: None. Persons with pre-existing disorders may be more susceptible.				
Fire Extinguisher Type:	Water spray, Carbon dioxide, dry chemical, foam.					DOT Classification: Not Regulated				
Fire/Explosion Hazards:	None Known.					DOT regulations may change from time to time. Please consult the most recent version of the relevant regulations.				
Fire Fighting Procedure:	Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and clothing.									

Revision No:0 Date Entered: 9/1/2006 Approved by: WPF
