

# New Hampshire, Maine, & Massachusetts

**EES 271 (3 CREDITS)**

## FROM THE OCEAN TO THE SEA II EARTH & ENVIRONMENTAL FIELD EXCURSION

### AT A GLANCE

**Travel Locations:** Exploring the White Mountains, Southern Maine, and Cape Cod

**Travel Dates:** 5/26/26 – 6/3/26

**Estimated Cost:** \$1,100

**Class Prerequisites:** EES 104 & EES 112

*Note: Dates and costs subject to slight change as plans are finalized*

### ABOUT THE COURSE

This course will introduce topics related to New England environmental earth science in preparation for the 8-day May field course across New Hampshire, Maine, and Massachusetts. Students will gain an in-depth understanding of New England's geological and environmental diversity. They will explore key field sites in the White Mountains, Coastal Maine, and Cape Cod, making original observations that reinforce and expand on classroom concepts. The experience includes hands-on field geology in mountainous and coastal terrains, enhancing students' practical skills and career readiness in environmental and earth sciences.
